

logger_interface

```
graph BT; native_string_logger[native_string_logger] --> logger_interface[logger_interface];
```

The diagram illustrates a relationship between two classes. At the top is a white box labeled 'logger_interface'. Below it is a gray box labeled 'native_string_logger'. A blue arrow points from the top of the 'native_string_logger' box up to the bottom of the 'logger_interface' box, indicating that 'native_string_logger' implements or inherits from 'logger_interface'.
