

logger\_interface

```
graph BT; stdout_logger[stdout_logger] --> logger_interface[logger_interface];
```

The diagram illustrates a relationship between two classes. At the top is a white box with a black border labeled 'logger\_interface'. At the bottom is a gray box with a black border labeled 'stdout\_logger'. A blue arrow points from the top of the 'stdout\_logger' box to the bottom of the 'logger\_interface' box, indicating that 'stdout\_logger' implements or inherits from 'logger\_interface'.

stdout\_logger
